Course Learning Objectives:
The course will cover an introduction to the concepts of contemporary geography, followed by a survey of key current global issues and an examination of several of the world’s major geographic realms. Students will learn issues of globalization as well as particular details of four regions critical to their role as informed residents of the United States (East Asia, South Asia, Europe, North America). Meets requirements GER 2/B and PD/A or B, for those eligible to use the GER program.

Learning outcomes:
1. Knowledge of disciplinary content, including basic geographic concepts, issues relating to our globalized culture, and background geographic data relating to selected regions of the world.
2. A synoptically synergized understanding of political, social, and economic problems affecting these regions at varying scales, as seen in spatial perspective, and how these scales are interrelated.
3. The ability to think critically about the above topics.

Required Text:
DeBlij, Muller, Nijman, Geography: Realms, Regions, and Concepts, 16th edition, Wiley, 2013; ISBN 978-1118707609 [Note that this is the binder edition, not the hardcover version. For the hardcover, check 978-1118673959]. There is apparently also a Kindle edition available. The 15th edition available and acceptable, but I would not recommend buying this used in binder format, as sections might be missing. If you can check it, note that only the following chapters will be needed: Introduction; 1A and B, 6A and B, 8A and B, 9A and B. Earlier editions are significantly different and are not acceptable.

Grading:
There will be two class exams and a final exam, all in short answer format. The exams will not be cumulative. The final grade will be determined on the average of the three exams, with allowance for class participation, and will be assigned as a letter grade based on the numerical standards that can be found in the Hunter College Undergraduate Catalogue. At least one week’s notice will be given on exams.

I do not offer extra credit in this course.

All exams, or approved make-ups, must be taken. Makes-ups will be scheduled at my convenience. To receive an incomplete (IN) a student must present evidence of a satisfactory reason and must have done “C” work or better PRIOR to the filing of the incomplete; otherwise, the student will receive a grade of WU.
Regarding attendance, I do not have a set policy, but note that 20% of my exams are based exclusively on lecture notes, 20% exclusively on the reading, and 60% on both.

Classroom Electronics:
I permit the use of electronic recording devices and dictionaries during lectures. ALL other personal electronics should be turned off before coming into the classroom. This includes cell phones, Blackberrys, etc. A computer may be used FOR TAKING NOTES ONLY, but if what you are doing becomes a distraction to others around you, I will ask you to shut it off.

NO ELECTRONIC DEVICES OF ANY KIND ARE PERMITTED DURING EXAMS. Violation of this rule will result in an automatic grade of zero for the exam, and the possibility of further disciplinary action.

Statement on Academic Integrity:
Hunter College regards acts of academic dishonesty (e.g., plagiarism, cheating on examinations, obtaining unfair advantage, and falsification of records and official documents) as serious offenses against the values of intellectual honesty. The College is committed to enforcing CUNY Policy on Academic Integrity and will pursue cases of academic dishonesty according to the Hunter College Academic Integrity Procedures. Other Notes:
Keep in mind that this is a weekly class, so missing one session is the equivalent of missing a full week’s work. I would suggest you develop a “buddy system” with one or more classmates to cover notes should you miss a session.

Well-behaved children are welcome at any time.
