Geography 22600: Environmental Conservation: Resource Management
Department of Geography
SYLLABUS AND COURSE OUTLINE

Instructor: Ramiro Campos
Term: Spring 2019
Office: Office Number 1032N
Class Meeting Days: Tuesdays, Fridays
Class Meeting Hours: 02:10 pm – 3:25 pm
E-Mail: rcampos@mec.cuny.edu Please e-mail me ONLY after you have checked Blackboard for any announcements.

Class Location: HN 1022
Office Hours: Fridays, 1:00 pm – 2:00 pm; other times by appointment ONLY
Course Mode: W (Web enhanced)

Blackboard Supported Browsers (desktop)
- Firefox 24® and later.
- Chrome™ 30 and later.
- Safari® 6 and later. Safari for Windows is no longer supported by Apple and is not supported for the new Blackboard Learn experience.
- Internet Explorer® 9 and later.
- For the best experience use Google Chrome™ or Firefox® (versions 49+)

Course Description
This course introduces students to environmental studies with a focus on the geographic aspect of policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system. This course will focus more on social science and ethics than on the methods of the practice of sustainability.

Course Overview
This course will introduce learners to the approaches and problems associated with resource conservation in the first stages, of the Anthropocene, an era in which human activity has a geologically significant impact on the earth’s atmosphere and ecosystems. Learners will be introduced to how political economy, political ecology, and environmental ethics are contributing to our understanding of broad issues such as population and world hunger, water and air pollution, forest management and soil conservation and how these approaches are being remedied by championing a sustainable approach to managing human and non-
human societies. The course will be split into (roughly) two sections: the first is a crash course into the fundamentals of political economy, ecology and ethics as it relates to resource conservation; the second will discuss how understanding political ecology has informed efforts to create a sustainable world.

Class attendance and class participation are a critical part of the semester grade. This means that you must be prepared to discuss the readings assigned for the day. Imagine that you will be required to give a two (2) minute (informal) oral presentation about the textbook and additional readings at the beginning of each lecture. My teaching philosophy is predicated on the belief that students learn best from their peers, so while the first 4-5 weeks of the course will be conducted in a standard lecture format, the course will shift to a seminar format by the end of September or early October.

However, any lecture period can develop into a seminar format at any time. I encourage you to ask questions and I expect you to answer other students’ question. We always learn best from our peers.

**Course Objectives / Student Learning Outcomes (SLOs)**
The course is designed to introduce students to the key concepts, themes, methodologies and tools of natural resource conservation. At the end of the course, learners should be able to:

1. Identify how scientists have arrived at the understanding of the Anthropocene
2. Discuss the relationship between geography and other disciplines
3. Understand the ecological aspects of modernization and population growth
4. Summarize the relevant economic, historical and ethical issues relating to resource depletion and conservation
5. Understand how the Anthropocene is intimately associated with 20th-century geopolitics and globalization
6. Predict how certain philosophical attitudes can lead to positive and negative changes in governmental conservation strategies
7. Differentiate between the varied philosophical approaches to resource use
8. Describe the fundamentals of soil conservation, pest management, forest and wildlife management and waste management
9. Describe and explain the impacts of fossil fuels on air and water resources
10. Integrate the philosophies of ecology and the science of conservation into an assessment of current resource management polices
11. Identify the issues involved in risk management and conservation
12. Reflect on what it means to live in a sustainable society
Required Texts and Materials
3. Additional readings: will be posted on Blackboard

Hunter College Policy on Academic Honesty
Hunter College regards acts of academic dishonesty (e.g., plagiarism, cheating on examinations, obtaining unfair advantage, and falsification of records and official documents) as serious offenses against the values of intellectual honesty. The College is committed to enforcing CUNY Policy on Academic Integrity and will pursue cases of academic dishonesty according to the Hunter College Academic Integrity Procedures. Plagiarism, dishonest, or cheating in any portion of the work required for this course will be punished to the full extent allowed according to Hunter College regulations.

Students with Disabilities
In compliance with the American Disability Act of 1990 (ADA) and with Section 504 of the Rehabilitation Act of 1973, Hunter College is committed to ensuring educational parity and accommodations for all students with documented disabilities and/or medical conditions. It is recommended that all students with documented disabilities (Emotional, Medical, Physical, and/or Learning) consult the Office of AccessABILITY, located in Room E1214B, to secure necessary academic accommodations. For further information and assistance, please call: (212) 772-4857 or (212) 650-3230. If you need disability-related accommodations for your work in this course, please let me know.

Hunter College Policy on Sexual Misconduct
In compliance with the CUNY Policy on Sexual Misconduct, Hunter College affirms the prohibition of any sexual misconduct, which includes sexual violence, sexual harassment, and gender-based harassment retaliation against students, employees, or visitors, as well as certain intimate relationship. Students who have experienced any form of sexual violence on or off campus (including CUNY-sponsored trips and events) are entitled to the rights outlined in the Bill of Rights for Hunter College.

a. Sexual Violence: Students are strongly encouraged to immediately report the incident by calling 911, contacting NYPD Special Victims Division Hotline (646-610-7272) or their local police precinct, on contacting the College’s Public Safety Office (212-772-4444)

b. All Other Forms of Sexual Misconduct: Students are also encouraged to contact the College’s Title IX Campus Coordinator, Dean John Rose (jtrose@hunter.cuny.edu or 212-650-3262) of Colleen Barry (colleen.barry@hunter.cuny.edu or 212-772-4534) and
seek complimentary services through the Counseling and Wellness Services Office, Hunter East 1123.

Most of your semester grade will depend on your attendance and participation in class as this will form the basis of the discussion board assignments. Other specifics as to the nature of the assignments will be explained on Blackboard for each assignment. No late assignments will be accepted past the due date. **No grades of "incomplete" or IN will be given except in cases of extreme circumstances.** A CR/NC grading option is available as per Hunter College guidelines. CR/NC forms must be submitted to the instructor no later than 15 minutes prior to the final exam. I will not accept CR/NC forms once the final exam has begun.

The Hunter College grading system is used in this course.
http://catalog.hunter.cuny.edu/content.php?catoid=32&navoid=7880

**Grade Dissemination:** All grades will be posted on Blackboard in a timely manner.

**Course Policies: Grades**
There are no make-ups for assignments, quizzes, or the final exam UNLESS in the case of a documented medical emergency.

**Extra Credit Policy:** There will be no extra credit assignments given for this course.
Course Policies: Student Expectations
Rubrics will be used to grade your Blackboard assignments and class participation. Each Blackboard assignment will be graded for two categories: completing the assignment (for four points) which will consist of a 300-500 word reflection piece; and responding to at least two peers’ assignments (for an additional point) in a coherent and constructive manner as to produce more discussion by your peers.

Please check Blackboard for the different rubrics used for the different assessments used in this course.

OTHER CONSIDERATIONS
1. You are expected to always be mindful of your classmates and do nothing that will interrupt or disrupt the learning process of others (not chewing gum, music, cell phones, etc.)
2. Although the campus policy clearly states that minors may not regularly attend their parents or guardians to class, well behaved children are welcome on an emergency basis, subject to the discretion of Campus Safety.
3. This course is not a glorified high school course in geography. It will be difficult at times and will demand more time than some of your other courses. Please understand that if you do not devote at least 4-5 hours of study for this course a week, and especially if you fall behind on the coursework, you will receive the grade your effort reflects.
4. You should consider yourself a scholar in this course, not just a student. You will be expected to learn how to produce knowledge, not just receive it.
5. Should you need to contact me, please email me at rcampos@mec.cuny.edu, with GEOG 22600 in subject line and sign your name as it appears in CUNYfirst. I will do my best to respond within 48 hours, with the exception of the weekends, when I might take longer.
6. Please follow these links for discussion board etiquette and guidelines
   a. https://www2.uwstout.edu/content/profdev/rubrics/discuss_etiquette.html

Tentative lecture schedule for spring 2019 on the next page.
Tentative Semester Outline

All Dates Tentative

Please note that *some* weeks we will only *skim* through the textbook and focus our lectures and discussion around readings posted on Blackboard. For example, I don’t actually expect you to read 4 chapters for Week 7.
