Here are some of the items in which New York ranks high nationally.***

### **Livestock Products**

Dairy and animal production in New York provided \$3.0 billion value of production to farmers in 2012.

### **Milk Production**

Milk is New York's leading agricultural product and is produced all across the state. Milk sales account for one-half of total agricultural receipts. Production in 2012 was 13.2 billion pounds with a preliminary value of \$2.56 billion. New York is the nation's 4th leading producer.

### **Poultry Production**

The combined value of eggs and the value of sales for chickens was \$93.7 million for 2012. New York ranks 22nd among all egg producing states in value of production.

### **Crop Production**

Field crops, fruits and vegetables returned \$2.70 billion to New York farmers in 2012.

### **FRUITS**

The value of New York's 2012 tree fruit, berry and grape crops totaled \$323 million, down 6 percent from the 2011 value.

#### ***Apples***

New York ranks 2nd nationally with production worth about \$249.8 million in 2012. Three general areas produce most of the apples: along the southern Lake Ontario shore, along the Hudson Valley, and along the upper Lake Champlain Valley.

#### ***Grapes***
