

**HUNTER COLLEGE OF THE CITY UNIVERSITY OF NEW YORK
DEPARTMENT OF GEOGRAPHY
GEOGRAPHY OF LONG ISLAND**

EXAM 2 STUDY GUIDE

Monday, May 23, 2001

5:45-7:45 PM, Rm. 1022HN

Course Home Page: <http://www.geo.hunter.cuny.edu/courses/geog383.33/>

I. Review:

- A. Class notes
- B. All electronic handouts, including *PowerPoint* slide presentations 10-22 and web reading list.
- C. All electronic thematic maps.

II. Readings:

See condensed internet reading list on the course home page for hot links.

III. Exam Format:

There will be a combination of

- Map questions from place name list below.
- A choice of short essay questions from all the topics covered.

Be able to discuss such geographic issues as aspects of Long Island's sequence settlement pattern, development during the 20th century, suburbanization, changing population and demographic patterns, changing economic activities, environmental issues, and the role of planning for future use. Of course, its physical environment cannot be forgotten, so review your notes on landforms, climate, coastal processes and groundwater.
