TITLE or TOPIC of project (Please write a one page statement of intent below.)
__________________________________________________________________________________________________________________________________________________________________

STATEMENT OF INTENT (Be specific in your description of the project telling what you would like to do, why you would like to do it, and how you will go about achieving your goal.)

Notes for the Student (Please remove the paragraphs and statements below when submitting your contract)
This part of the contract needs to be drafted by YOU, the student. Your mentor will work with you to increase the probability of finishing the work.
You need to include the following information about the proposed research project:
1) The research question: As you can best articulate
2) The research claim (hypothesis): State what might be your best guess at the answer to the question you pose
3) The rationale: Why would the answer to this question be important?
4) A brief outline of the methods to be used to collect and analyze data
Include in your description of the project, the following paragraph:
“During this research, I will work with Prof. __________. I agree to meet with /her/him approximately every 2-3 weeks. At the end of the semester I will submit a 6-8,000 word document. This research report will include the following sections: introduction, literature review (background and theory), research design (methods), findings (results), discussion, conclusions and references.”

Once you and your mentor agree to the terms of the project, you both must sign the document, present a copy to the undergraduate or graduate Environmental Studies adviser, and then take the original signed contract to the department office. Only then will you be given permission to register in either Independent Research/Study or Honors.
